Schedule 9: Portability Guidelines

An Empanelled Health Care Provider (EHCP) under AB-PMJAY in any state should provide services as per AB-PMJAY guidelines to beneficiaries from any other state also participating in AB-PMJAY. This means that a beneficiary will be able to get treatment outside the EHCP network of his/her Home State.

Any empanelled hospital under AB-PMJAY will not be allowed to deny services to any AB-PMJAY beneficiary. All interoperability cases shall be mandatorily under pre-authorisation mode and pre-authorisation guidelines of the treatment delivery state in case of AB-PMJAY implementing States / UTs or indicative pre-authorisation guidelines as issued by NHA, shall be applicable.

Enabling Portability

To enable portability under the scheme, the stakeholders need to be prepared with the following:

- A. **States:** Each of the States participating in AB-PMJAY will sign MoU with Central Government which will allow all any the hospital empanelled hospitals by that state under AB-PMJAY to provide services to eligible beneficiaries of other States from across the country. Moreover, the state shall also be assured that its AB-PMJAY beneficiaries will be able to access services at all AB-PMJAY empanelled hospitals seamlessly in other states across India.
- B. **Empanelled hospitals:** The Empanelled Hospital shall have to sign contract with its insurance company/ Implementation Support Agency (ISA) (as per the model selected by the SHA) or with the Trust which explicitly agrees to provide AB-PMJAY, MA and MAV services to AB-PMJAY, MA and MAV beneficiaries from both inside and outside the state (applicable only to PMJAY beneficiary) and the Insurance Company/ISA/ Trust agrees to pay to the EHCP through the inter-agency claim settlement process, the claims raised for AB-PMJAY beneficiaries that access care outside the state in AB-PMJAY empanelled healthcare provider network.
- C. **Insurance companies/Trusts:** The Insurance Company (IC) signs a contract with all other IC's and Trusts in the States / UTs under AB-PMJAY to settle down the interoperability related claims within 30 days settlement so that the final payment is made for a beneficiary by the Insurance Company or Trust of his/her home state.
- D. **IT systems:** The IT System will provide a central clearinghouse module where all inter-insurance, inter trust and trust-insurance claims shall be settled on a monthly/bi-monthly basis. The IT System will also maintain a Balance Check Module that will have data pushed on it in real time from all participating entities. The central database shall also be able to raise alerts/triggers based on suspicious activity with respect to the beneficiary medical claim history based on which the treatment state shall take necessary action without delay.

- E. **Grievance Redressal:** The Grievance Redressal Mechanism will operate as in normal cases except for disputes between Beneficiary of Home State and EHCP or IC of Treatment State and between Insurance Companies/Trusts of the Home State and Treatment State. In case of dispute between Beneficiary and EHCP or IC, the matter shall be placed before the SHA of the treatment state. In cases of disputes between IC/Trust of the two states, the matter should be taken up by bilateral discussions between the SHAs and in case of non-resolution, brought to the NHA for mediation. The IC/Trusts of Home State should be able to raise real time flags for suspect activities with the Beneficiary State and the Beneficiary State shall be obligated to conduct a basic set of checks as requested by the Home State IC/Trust. These clauses have to be built in into the agreement between the ICs and the Trusts. The NHA shall hold monthly mediation meetings for sorting out intra-agency issues as well as sharing portability related data analytics.
- F. **Fraud Detection:** Portability related cases will be scrutinized separately by the NHA for suspicious transactions, fraud and misuse. Data for the same shall be shared with the respective agencies for necessary action. The SHAs, on their part, must have a dedicated team for conducting real time checks and audits on such flagged cases with due diligence. The IC working in the State where benefits are delivered shall also be responsible for fraud prevention and investigation.

Implementation Arrangements of Portability

- A. **Packages and Package Rates:** The Package list for portability will be the list of mandatory AB-PMJAY packages released by the NHA and package rates as applicable and modified by the Treatment State will be applicable. The Clause for honouring these rates by all ICs and Trusts shall have to be built into the agreement.
- Clauses for preauthorization requirements and transaction management system shall be as per the treatment state guidelines.
 - The beneficiary balance, reservation of procedures for public hospitals as well as segmentation (into secondary/tertiary care or low cost/high cost procedures) shall be as per the home state guidelines.
 - Therefore, for a patient from Rajasthan, taking treatment in Tamil Nadu for CTVS in an EHCP – balance check and reservation of procedure check will be as per Rajasthan rules, but TMS and preauthorization requirements shall be as per TN rules. The hospital claim shall be made as per TN rates for CTVS by the TN SHA (through IC or trust) and the same rate shall be settled at the end of every month by the Rajasthan SHA (through IC or trust).

B. Empanelment of Hospitals: The SHA of every state in alliance with AB-PMJAY shall be responsible for empanelling hospitals in their territories. This responsibility shall include physical verification of facilities, specialty related empanelment, medical audits, post procedure audits etc.

- For empanelment of medical facilities that are in a non AB-PMJAY state, any AB-PMJAY state can separately empanel such facilities. Such EHCP shall become a member of provider network for all AB-PMJAY implementing States. NHA can also empanel a CGHS empanelled provider for AB-PMJAY in non AB-PMJAY state.
- Each SHA which empanels such a hospital shall be separately and individually responsible for ensuring adherence of all scheme requirements at such a hospital.

C. Beneficiary Identification: In case of beneficiaries that have been verified by the home state, the treatment state EHCP shall only conduct an identity verification and admit the patient as per the case.

- In case of beneficiaries that have not been so verified, the treatment EHCP shall conduct the Beneficiary Identification Search Process and the documentation for family verification (ration card/family card of home state) to the Home State Agency for validation.
- The Home State Agency shall validate and send back a response in priority with a service turnaround time of 30 minutes. In case the home agency does not send a final response (IC/Trust check), deemed verification of the beneficiary shall be undertaken and the record shall be included in the registry. The home state software will create a balance for such a family entry.
- The empanelled hospital will determine beneficiary eligibility and send the linked beneficiary records for approval to the Insurance company/trust of Treatment State which in turn will send the records to the Insurance company/trust in the home State of beneficiary. The beneficiary approval team of the Insurance company/trust in the home State of beneficiary will accept/reject the case and convey the same to the Insurance company/trust in the State of hospital which will then inform the same to the hospital. In case the beneficiary has an E-Card (that is, he/she has already undergone identification earlier), after a KYC check, the beneficiary shall be accepted by the EHCP.
- If the NHA and the SHA agree to provide interoperability benefits to the entire Home State Beneficiary List, the identification module shall also include the Home State Beneficiary Database for validation and identification of eligible beneficiaries.

D. Balance Check: After identification and validation of the beneficiary, the balance check for the beneficiary will be done from the home state. The balance in the home state shall be blocked

through the necessary API and updated once the claim is processed. The NHA may provide a centralised balance check facility.

- E. **Claim Settlement:** A claim raised by the empanelled hospital will first be received by the Trust/Insurer of the Treatment State which shall decide based on its own internal processes. The approval of the claim shall be shared with the Home State Insurance Company/Trust which can raise an objection on any ground within 3 days. In case the Home State raises no objection, the Treatment State IC/Trust shall settle the claim with the hospital. In case the Home State raises an objection, the Treatment State shall settle the claim as it deems fit. However, the objection of the Home State shall only be recommendatory in nature and the Home State shall have to honour the decision of the Treatment State during the time of interagency settlement.
- F. **Fraud Management:** In case the Trust/Insurer of the home State of beneficiary has identified fraudulent practices by the empanelled hospital, the Trust/Insurer should inform the SHA of the Treatment State of EHCP along with the supporting documents/information. The SHA of the Treatment State shall undertake the necessary action on such issues and resolution of such issues shall be mediated by the NHA during the monthly meetings.
- G. **Expansion of Beneficiary Set:** In case, there is an alliance between AB-PMJAY and any State Scheme or AB-PMJAY has been expanded in the Home State, the above process for portability may be followed for all beneficiaries of the Home State.
- H. **IT Platform:** The states using their own platform shall have to provide interoperability with the central transaction and beneficiary identification system to operationalize guidelines for portability for AB-PMJAY.
- I. **Modifications:** The above guidelines may be modified from time to time by the National Health Agency and shall apply on all the states participating in the Pradhan Mantri Jan Arogya Yojana.
